

## CONTINENTAL MOTORS GROUP, LTD.

15 March 2015

Re: Authorized Sales, Service, Support, and Sales of Engines and Parts for Continental Motors Group Companies by Continental Motors Beijing, Ltd.

Dear Valued Customers:

It is Continental Motors Group's goal to ensure exceptional customer service in all aspects of our business. To this end, Continental Motors Group established Continental Motors Beijing (CMB) in 2014 to act as our direct business unit in China. CMB is staffed with factory and service center trained team members in the area of gasoline and diesel engine technical support, parts sales and service, warehouse management, warranty, and general product knowledge.

I am pleased to announce that effective immediately, CMB, a wholly owned subsidiary of Continental Motors Group, is the authorized, exclusive representative in the People's Republic of China for all Continental Motors Group businesses and products, including those manufactured by Continental Motors, Inc. (Gasoline and Diesel Engines), Technify Motors, Inc. (Diesel Engines), and Continental Motors Services, Inc. (Maintenance, Repair and Overhaul Services).

CMB will stock the most frequent parts and engines used by Continental Motors Group's customers in China. In addition, it will maintain a staff of trained technical support personnel to aid customers in a timely manner with its technical questions, as well as a team of knowledgeable personnel in its parts department to ensure parts information is readily available to supplement our extensive inventory.

For immediate and further information regarding the services offered by Continental Motors Beijing or to place orders for engines or parts, please contact:

Mr. Andrew Lu, Director, Sales and Aftermarket Support  
Tel. No. 010-84989885,  
Email: Andrewlu@continentalmotors.aero

We look forward to serving you better with our new, fully trained team at Continental Motors Beijing.

Sincerely,

Rhett Ross  
Director, Board of Directors  
Continental Motors Group, Ltd.
